i. Data Structures & algorithm management system
ii. Object Oriented Programming
iii. Database
iv. Data communication and networking

EXPERIENCE

Inovareun   June 2025 - Present
Full-stack developer | Founder   Lagos, Nigeria

- Bilding **Aura,** The all-in-one platform for effortless remote onboarding. Automate checklists, collect documents securely, and connect your new team members from day one.
- Stack: **Next.js, javascript, Appwrite, and Google cloud**

Shaakaarah agency   Dec 2024 - Nov 2025
Frontend developer   Lagos, Nigeria

- Building **Algorithmics**, Successfully developed responsive and visually appealing user interfaces.
- Stack: **Next.js**, and **Tailwind CSS**, ensuring seamless user experiences.

PROJECTS

Collabriss | Next.js, Appwrite, Tailwindcss, Google cloud   **Live**

- Built Collabriss with **Next.js** to gain significant advantages in performance and SEO for the online stores, critical for product visibility and customer experience. Additionally, Next.js's full-stack capabilities, using **API Routes**, allowed you to create a secure, cohesive "all-in-one" platform for handling sensitive operations like payments and inventory management within a single environment.

Dunkab | Next.js, Mongodb, Tailwindcss   **Live**

- Built Dunkab Ventures, an elegant e-commerce gateway built to showcase and deliver quality goods, making the journey from 'Shop Now' to doorstep seamless and secure.

Dunkab exist to be the trusted connection between its customers and the essential products for their homes and kitchens.
